Gentlemen:

ARCO Petroleum Products Company, a division of Atlantic Richfield Company, hereby submits its Comprehensive Environmental Response, Compensation, and Liability Act - Section 103(c) notification to EPA for locations where hazardous wastes may have been treated, stored, or disposed of for petroleum refinery facilities which Atlantic Richfield Company or its predecessor companies owned or operated at the time of waste treatment, storage, or disposal.

The locations reported were identified commensurate with the timeframe available following the publication of EPA's implementing requirements in the Federal Register, Vol. 46, No. 72, Wednesday, April 15, 1981, by a review of Atlantic Richfield archives and related historical data, using Company and contractual resources. The information submitted is based on the presumption that, since it was common industry practice to dispose of wastes on plant grounds, the prevailing disposal practice may have been followed. Such wastes may have been considered hazardous under RCRA regulations. In some instances, personal knowledge or recollection of present employees supported this premise. No records of waste disposal practices were available.

A summary explanation is attached describing the approach taken in developing the information reported on EPA Form 8900-1 for facilities previously owned or operated by Atlantic Richfield Company or its predecessor companies at the time of waste treatment, storage, or disposal.

Please contact Mr. A. F. Pope, Manager, Environmental Policy and Planning, ARCO Petroleum Products Company, 213/486-1913, regarding the information submitted on the enclosed forms.

Very truly yours,

A. F. Pope

**DISCUSSION OF INFORMATION SUBMITTED
ON EPA FORM 8900-1, "NOTIFICATION OF
HAZARDOUS WASTE SITE"**

GENERAL QUALIFICATION

There are no records of waste handling at these sites. In most instances, there is no recollection or knowledge by present employees of waste handling at these sites. However, petroleum refineries were owned or operated by Atlantic Richfield Company or its predecessor companies at these locations. It was common industry practice to dispose of any wastes on plant grounds. We may have followed the prevailing disposal practice. Such wastes may have been considered hazardous under RCRA regulations.

PART A -- PERSON REQUIRED TO NOTIFY

ARCO Petroleum Products Company is a division of Atlantic Richfield Company. Petroleum refineries are operated by this division. Petroleum refineries owned or operated by Atlantic Richfield Company or its predecessor companies are being notified for by ARCO Petroleum Products Company.

PART B -- SITE LOCATION

Former petroleum refinery locations are given by the street address and city at the time of operation where the information has been available. Where specific address information is not available, the city at the time of operation is provided.

PART C -- PERSON TO CONTACT

The single point of contact for all notifications by ARCO Petroleum Products Company is Arthur F. Pope, Manager, Environmental Policy and Planning, located in Los Angeles, California.

PART D -- DATES OF WASTE HANDLING

Former petroleum refineries owned or operated by Atlantic Richfield Company or its predecessor companies are notified for the earliest known date of facility operation through the latest known date of facility operation.

PART E -- WASTE TYPE

Option 1 has been selected for notification. This option provides the needed flexibility to report known hazardous wastes and the probability that some unknown type of wastes were disposed as a consequence of petroleum refining and related activities. Some of the unknown wastes may have been considered hazardous under RCRA regulations.

PART F -- WASTE QUANTITY

Facility type, waste amount, and area are unknown. In some instances, general information has been based on personal knowledge of present employees. A complete description of facility types, waste amounts, and extent of areas of disposal is not possible, due to the lack of information and the age of the facilities.

PART G -- KNOWN, SUSPECTED OR LIKELY RELEASES TO THE ENVIRONMENT

An additional response "unknown" has been used instead of the available responses. ARCO Petroleum Products Company does not have sufficient information to make the determinations as set forth on the form. While no releases are known, suspected, or likely, we have no specific evidence that none have occurred. The only response appropriate with our knowledge is "unknown".

PART H -- SKETCH MAP OF SITE LOCATION (OPTIONAL)

The formerly owned or operated petroleum refinery locations of Atlantic Richfield Company or its predecessor companies at which waste treatment, storage, or disposal occurred in the past which may be subject to CERCLA Section 103(c) notification are identified in Part B -- Site Location. Insufficient information is available to prepare a map for those locations not identified by a street address.

PART I -- DESCRIPTION OF SITE (OPTIONAL)

The formerly owned or operated petroleum refinery locations of Atlantic Richfield Company or its predecessor companies at which waste treatment, storage, or disposal occurred in the past which may be subject to CERCLA Section 103(c) notification cannot be described as required due to lack of specific information by ARCO Petroleum Products Company, particularly for those locations where only a city location is known.

PART J -- SIGNATURE AND TITLE

The single point of contact authorized to sign the form for ARCO Petroleum Products Company is Arthur F. Pope, Manager, Environmental Policy and Planning, located in Los Angeles, California.
